Aggarwal Steels

Strong Foundations, Stronger Relations

Since its inception, **Aggarwal Steels has been dedicated to providing superior iron and steel products** – including TMT Bars, Plates, Angles, Channels, Beams, and more – to meet the dynamic needs of the construction and industrial sectors.

With a strong PAN India presence, our advanced infrastructure, modern processing units, and skilled teams ensure every product reflects precision, durability, and consistency. From housing projects to large-scale infrastructure, Aggarwal Steels has become a trusted backbone of reliable structures.

Recognized by builders, contractors, and industries nationwide, we proudly uphold national and international quality standards. Our legacy of strength, innovation, and reliability continues to build not just projects, but enduring trust and long-term progress.

Our Founder & CEO – Visionary Leadership

We are proud to have **Mr. Aakash Goyal**, the **Founder & CEO of Aggarwal Steels,** leading our journey of strength and trust. With over a **decade of experience in the iron & steel industries** his expertise in sourcing premium raw materials, streamlining processes, and building strong supply networks has been the driving force behind our consistent growth.

Under his visionary leadership, Aggarwal Steels has become a trusted name in TMT Bars, Plates, Angles, Channels, Beams, and other steel solutions for construction and industries across India. His commitment to quality, innovation, and reliability continues to inspire our team to deliver excellence every day.

Mr. Aakash believes:
“Steel is not just a product – it is the strength that builds foundations and the trust that builds relationships.”

Our Mission

At Aggarwal Steels, our mission is to deliver strength with purpose. We provide high-quality iron and steel products – from TMT Bars to Plates, Angles, Channels, and Beams – that empower builders, industries, and infrastructure projects with reliability and durability.

By ensuring timely supply, cost-effective solutions, and uncompromised quality, we aim to be a trusted partner in every project, building not just structures but also confidence and long-lasting relationships.

Our Vision

Our vision is to shape the future of construction and industry by becoming a globally recognized brand in iron and steel. **We aspire to set new benchmarks in strength, sustainability, and innovation** – creating products that don’t just support structures, but also support the nation’s growth and inspire global trust.
We look ahead to a future where Aggarwal Steels is synonymous with progress – **driving mega infrastructure, enabling industries, and delivering value beyond borders.**
